

PV Forum - Industry Deployment
Wednesday, September 10th, 2008
08:30 - 12:10

Room 201DEF, 2F, Taipei International Convention Center, Taipei

Event Code : PVFM

Event Fee : NTD7,000 (2 day pass for 4 full PV courses)

Description:

Photovoltaic energy is the focal point of the new energy development in the future. Photovoltaic power system is based on photovoltaic or solar modules which are very reliable and do not require any fuel or servicing. Every technology causes some amount of harm to the environment. Unlike fossil fuel based technologies, solar power does not lead to any harmful emissions during operation.

The global environment report shows that renewable energy is poised to make a contribution to meeting energy needs and reducing the growth in carbon dioxide emissions in the years immediately ahead. The fastest growing energy technology in the world is grid-connected solar photovoltaics, PV, with 50 percent annual increases in cumulative installed capacity in both 2006 and 2007.

So much has happened in the renewable energy sector during the past five years that the perceptions of some politicians and energy-sector analysts lag far behind the reality of where the renewable industry is today.

In this forum, industry analysts from the globe are going to have an insight discussion about PV market, global PV policies, PV investment and applications with three world leading class PV experts.

Theme: Industry Deployment

- PV Market Overview
- Global PV Policies

Forum Chair:

Dr. Chung-Wen Lan, Vice Chairman of SEMI Taiwan PV Committee /
General Director, PVTC/ITRI

Agenda:

08:30 – 09:00	Registration
09:00 – 09:10	Opening Remarks 1. Mr. Dan Martin, EVP Global Standards, FPD, PV & Emerging Markets, SEMI 2. Dr. Chung-Wen Lan, General Director of PVTC/ITRI
09:10 – 09:50 	Market Overview Mr. Osamu Ikki, President, RTS
09:50 – 10:30 	Global PV Policies Mr. Gerhard Stryi-Hipp, Managing Director, German Solar Industry Association (BSW-Solar)
10:30 – 10:50	Break Time
10:50 – 11:30 	Thin Film Equipment Market Outlook Mr. Karsten Iltgen, Solar/ Technology Analyst, Credit Suisse Securities (Europe) Ltd.
11:30 – 12:10 	The evolving landscape of PV investors Mr. Charles Yonts, Solar and Cleantech Analyst, CLSA Asia-Pacific Markets
12:10	Adjournment

- Programs are subject to change without prior notice.
- All presentations will be conducted in English.
